I chose to study TEFL course at Lanka TEFL Training institute, Sri Lanka, because I got to know that the academic panel of lectures and the staff are excellent and serve the best to the students. Special adulation is granted to the lectures who taught by heart and soul. I would love to mention Mrs Dilangi who paid keen individual attention for us and helped to make better lesson plans. Similarly, the staff is very friendly and negotiable. I had a great time at the TEFL institute. This was a wonderful experience that helped me become more confident in myself in the profession of teaching and This institute is highly recommended for those who really want to be
