

5—7 Months Internship Programme

This programme is designed for TEFL graduates who want to teach but do not have relevant experience and, in many cases, have a Bachelor's Degree. They would like to stay in China longer but need more guidance and support initially. They will teach for a total of 12 months, where a basic salary will be given for the first 5 months and a further salary increase for the remaining 7 months.

This programme is very popular because not so many schools in China accept Skype interviews, which makes it difficult to find a job if you are outside of China. Why? Because obtaining a Z visa is complicated in China, and it is a difficult situation if the school makes a Z visa for the teacher but finally either the school or the teacher decides that they are not suitable.

To solve this, our China company has developed this programme to solve this kind of problem for both the school and the teacher.

After you arrive in China, our China company will help you find accommodation and recommend you 1 to 3 schools. During the first 5 months, they will pay you around 8000RMB as an introductory salary. After which, your salary will increase for the remaining 7 months until the completion of your contract. After the contract ends, you can choose to extend the current contract with the same school, or apply for another school.
