The time I have spent at the Lanka TEFL Training
Institute has been a positive, enjoyable and overall enriching
experience for me. The lecturers who conducted the course
gave us a first hand knowledge about the practical aspects of
teaching English which was extremely valuable to us. The
teaching practice which is included in the course is also a
unique and extremely valuable addition to the experience. I highly
recommend the TEFL course and this institute to anyone who is
interested in the pursuit of teaching English as a profession.
